

Senior Engineer Product Water Treatment

Norit Südmo is part of the Norit Group that is active on the international scene. We employ 300 persons at our Riesbürg, Germany location with performance ranging from manufacturing world-class stainless steel fittings to building fully automatic production plants for the beverage, foodstuffs and pharmaceutical industries.

If you are a team player who appreciates lean structures and uncomplicated decision-making processes and are seeking a position at a company active in the global environment, we are just right for you.

Your duties will be:

- You will have professional co-responsibility for the water treatment segment
- You have a sound knowledge of water chemistry
- You will select the treatment process for customer requirements
- You will be a contributor to consistently expanding our water treatment systems group of products
- You will service the entire product range starting from drawing up quotations through dimensioning/handling right down to official acceptance
- You will draw up precision performance specifications for the development department
- You will follow up on international calls for tenders
- You will create information material for specific target groups
- You will vividly showcase product demonstrations and training courses

The skills you have:

- A degree in process engineering or equivalent college education
- Ideally you will have experience in various water treatment systems, in particular in the municipal sector
- Mastery of state-of-the-art methods and techniques of water treatment such as sand filtration, reverse osmosis and microfiltration including dimensioning them
- First-hand experience in handling/advising final customers
- Perfect command of written and spoken English
- Other foreign languages would be a plus for this position, although they are not a prerequisite

You are a confident personality with a high level of communication skills. You take on any challenge with great commitment on your own initiative. We are also offering dedicated up-and-coming professionals the opportunity to grow with us.

We have a dynamic environment to offer you where working creatively is fun, where performance is not only in demand but also encouraged and where professional prospects are in the offing.

If you have the right qualifications and background, please send us your complete application documents and salary expectations along with the earliest date when you can start (by email wherever possible).
